

SERIE AM-201
REVERSIBLE SINGLE-PHASE AUTOTRANSFORMERS ENCAPSULATED IP-65

Dry type transformer
Norms: According to EN 61558-2-13.
Reversible Voltages AC.
Windings: Class H (180º).
Insulation: Class B (130º).
Winding without galvanic isolation.
Frequency: 50-60 Hz.
Degree of protection: IP-65.
External box in polyamide with fiberglass.
Encapsulated in Polyurethane resin.
Class II.
Not resistant to short-circuits.
Compression glands IP-65.

***Under demand, they can be manufactured in other powers and different voltages of primary and secondary.**
***All specifications listed in this brochure are subject to change without notice.**

Se pueden fabricar en diferentes potencias y distintos voltajes de primario y secundario

Different voltages (primary and secondary) and other power available upon request.

The **PHONOVOX REVERSIBLE SINGLE-PHASE AUTOTRANSFORMERS** are apparatus which have been designed chiefly for solving the problems which arise on connecting electrical apparatus for industrial and domestic use to networks of different voltage.
Raise or reduce the mains voltage in order to provide the necessary voltage to the equipments.
